

ASTRA 3rd EDITION SHEER 320cm

For over 15 years, Astra has been the number one choice for customers seeking a fine linen-look, 100% polyester sheer. Combining excellent value with the reliability of a premium sheer sourced from Turkey, Astra continues to set the standard in quality and style.

This range features an extensive updated colour palette inspired by today's interior design trends, with a focus on warm sandy tones, off-whites, ivories, muted greens and blues. Astra 3rd Edition achieves an AS1530.2 FR rating and is finished with a weighted base for a refined drape and premium appearance.

Usage	Curtains & Accessories

Important Note

Wide Width Designs

The wide width designs have been sampled "up the roll". To utilise this as a continuous fabric please view the design in the opposite direction.

Fabric End Use

Please ensure the fabric you have selected is suitable for the end use it has been sold to the consumer for. In particular, Hoad does not recommend any of our fabrics be manufactured into Roman Blinds unless they have been professionally pre-shrunk. Most of our fabrics are designed for window treatments and may not be suitable for upholstery, please check before ordering.

Fabric Colour Fastness

Hoad Fabrics are purchased to Australian standards of fabric performance. However, all fabrics will fade due to direct or indirect sunlight, in particular leading edges of curtaining. These should be protected by suitable linings and/or exterior awnings, for extreme conditions. No claims will be recognised for fabrics that have not been properly protected from sunlight.

Pattern Repeats & Fabric Widths

Due to manufacturing tolerances all pattern repeats and finished fabric widths are a close approximate; a variation of up to 5% may occur and should be allowed for when ordering.

Pricing

Prices are current at time of launch, but subject to change without written notice.
