# EMPIRE BLOCKOUT 290cm

*Empire is a versatile blockout fabric featuring a textured face that adds depth and character. Made from 100% polyester, the fabric incorporates a flock-finished coating to provide effective light blockage and a smooth, functional backing. Available in 8 distinctive colourways, Empire offers a range of options to complement both contemporary and classic interiors. Woven to a generous 290cm width, it is suitable for a variety of residential and commercial window furnishing applications.*

*Important Note*

***Wide Width Designs***
*The wide width designs have been sampled "up the roll". To utilise this as a continuous fabric please view the design in the opposite direction.*

***Fabric End Use***
*Please ensure the fabric you have selected is suitable for the end use it has been sold to the consumer for. In particular, Hoad does not recommend any of our fabrics be manufactured into Roman Blinds unless they have been professionally pre-shrunk. Most of our fabrics are designed for window treatments and may not be suitable for upholstery, please check before ordering.*

***Fabric Colour Fastness***
*Hoad Fabrics are purchased to Australian standards of fabric performance. However, all fabrics will fade due to direct or indirect sunlight, in particular leading edges of curtaining. These should be protected by suitable linings and/or exterior awnings, for extreme conditions. No claims will be recognised for fabrics that have not been properly protected from sunlight.*

***Pattern Repeats & Fabric Widths***
*Due to manufacturing tolerances all pattern repeats and finished fabric widths are a close approximate; a variation of up to 5% may occur and should be allowed for when ordering.*

***Pricing***
*Prices are current at time of launch, but subject to change without written notice.*
